

August 19, 2021

Dear Resident:

The Illinois Tollway's Central Tri-State Tollway (I-294) Project is underway to reconstruct and widen the roadway from Balmoral Avenue to 95th Street. The project will replace old infrastructure and provide congestion relief to meet future transportation demands and address regional needs. The project began in 2018 and is scheduled to be complete in 2026.

As we shared with you previously in our July 1, 2021, letter the Plainfield Road Bridge over I-294 and Flagg Creek is being removed and reconstructed to accommodate the roadway reconstruction. Work on this project has begun and the new bridge is scheduled to be complete in spring 2023.

The Plainfield Road Bridge will remain open to traffic during construction as the contractor is working on one half of the bridge at a time.

While the majority of construction work is taking place during daytime hours, some activity, including breaking of concrete and removal of portions of the bridge structure, will require intermittent nighttime work. This activity is scheduled due to allowable lane closures on the Tollway that are needed to provide a safe work zone for workers and traffic. We recognize this may be an inconvenience so we are proactively working with the contractor minimize night work to the fullest extent practicable.

As we move forward with construction, we will be reaching out to you with information regarding activity near your property. To learn more about the Central Tri-State Tollway Project, please visit the Projects section on the Tollway's website at www.illinoistollway.com.

If you have any questions or concerns, please do not hesitate to contact our construction communications team via email at 294tristate@getipass.com or our 24/7 construction hotline at 630-246-2930.

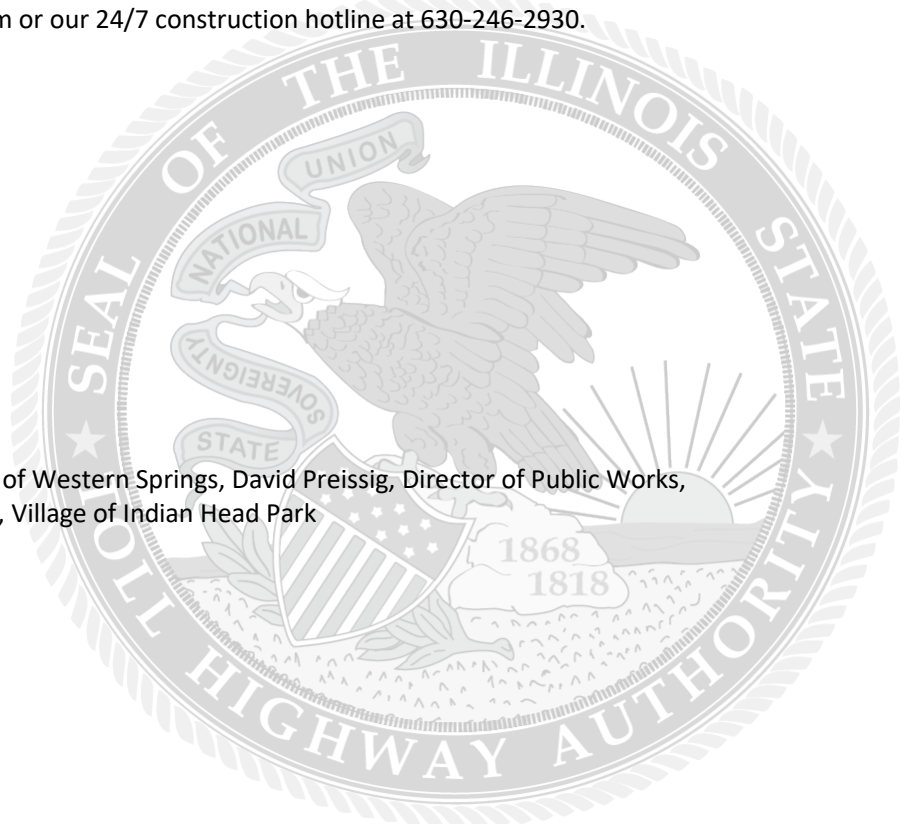

Sincerely,

A handwritten signature in black ink that reads "Lanyea Griffin".
